YOUNESS

Human beings have had many experiences of feeling something beautiful.  
Through history and evolution, the concept of beauty has changed over time.  
However, there is beauty that does not change through the course of time.  
Curiously, humans share an essential feeling of beauty.  
What people feel as beautiful are often born from natural objects.  
Visual Arts cleanses your mind.  
By nature, humans don't like monotonous things, and we feel happiness  
by looking at complex beautiful things and running our eyes on the various details.  
It is important for us to understand what is felt beautiful, and to incorporate the beauty  
into our lives appropriately.  
YOUNESS will propose such "lifestyle that makes you feel happy".

*Make your*  
**SMILE**  
*change the* WORLD

The Founder and President of the **Global Gift Foundation, Maria Bravo**, considers it fundamental and a priority that children with special needs in Marbella receive therapies that are essential for their physical, psychological and social development that will consequently improve their quality of life and social integration.

For this reason, **Maria Bravo** founded **Casa Global Gift**; a multifunctional center where they can have pedagogical, therapeutic treatments as well as leisure activities, in a warm environment that favours their growth and development process with the best innovative equipment and specialized professionals.

The space will be used by 5 local associations in Marbella that cater to children with special needs and their families leaving the door open for those who need help, whether they are affiliated or not with an NGO.

Due to the huge costs of running this centre, we need the help of all our donors, so that this dream come true can continue over time and more than 200 children benefit from the therapies and support they need day after day.

**CONTRIBUTING YOUR BIT WILL BENEFIT THE MANY CHILDREN WHO NEED OUR SUPPORT.**
